Consolidated Plan Listing of Projects

Applicant's Name ___ City of Harrisonburg – Department of Parks & Recreation, in conjunction with “A Dream Come True” Citizens Group

Priority Need _____ Public Facilities – Parks & Recreational Facilities

Project Title _____ “A Dream Come True” – An Accessible Playground

Project Description

This is a playground designed for children with and without disabilities to play together. This interactive play is called “inclusive play” – regular play equipment combined with “special” play equipment. Currently the closest inclusive playground is more than 100 miles from Harrisonburg. Playing on a playground is something all children need to do to develop motor, language, and interactive skills, but children with disabilities are often left to watch others play. This playground design will provide accessible surfacing to enable children with motor challenges to access the playground and equipment, and it will provide activities for children with low vision, sensory, and balance needs, including a blind run, special swings, a hammock, music panel, interactive game panels, a roadway for motorized wheelchairs, a sensory garden, picture communication symbols for non-verbal children, and more. This design meets stringent safety standards and ADA requirements. \$130,000 was requested for this project.

Location

41 Monument Avenue, Harrisonburg, VA 22801. Located in Purcell Park, southwest of the tennis courts near the new Shelter #1. This very unique playground will serve the entire City.
